Refrigerator

Computer Server

If a bad noise can't be stopped  
then, perhaps, show the  
source of the noise in the film  
so that the viewer is no longer  
distracted by curiosity

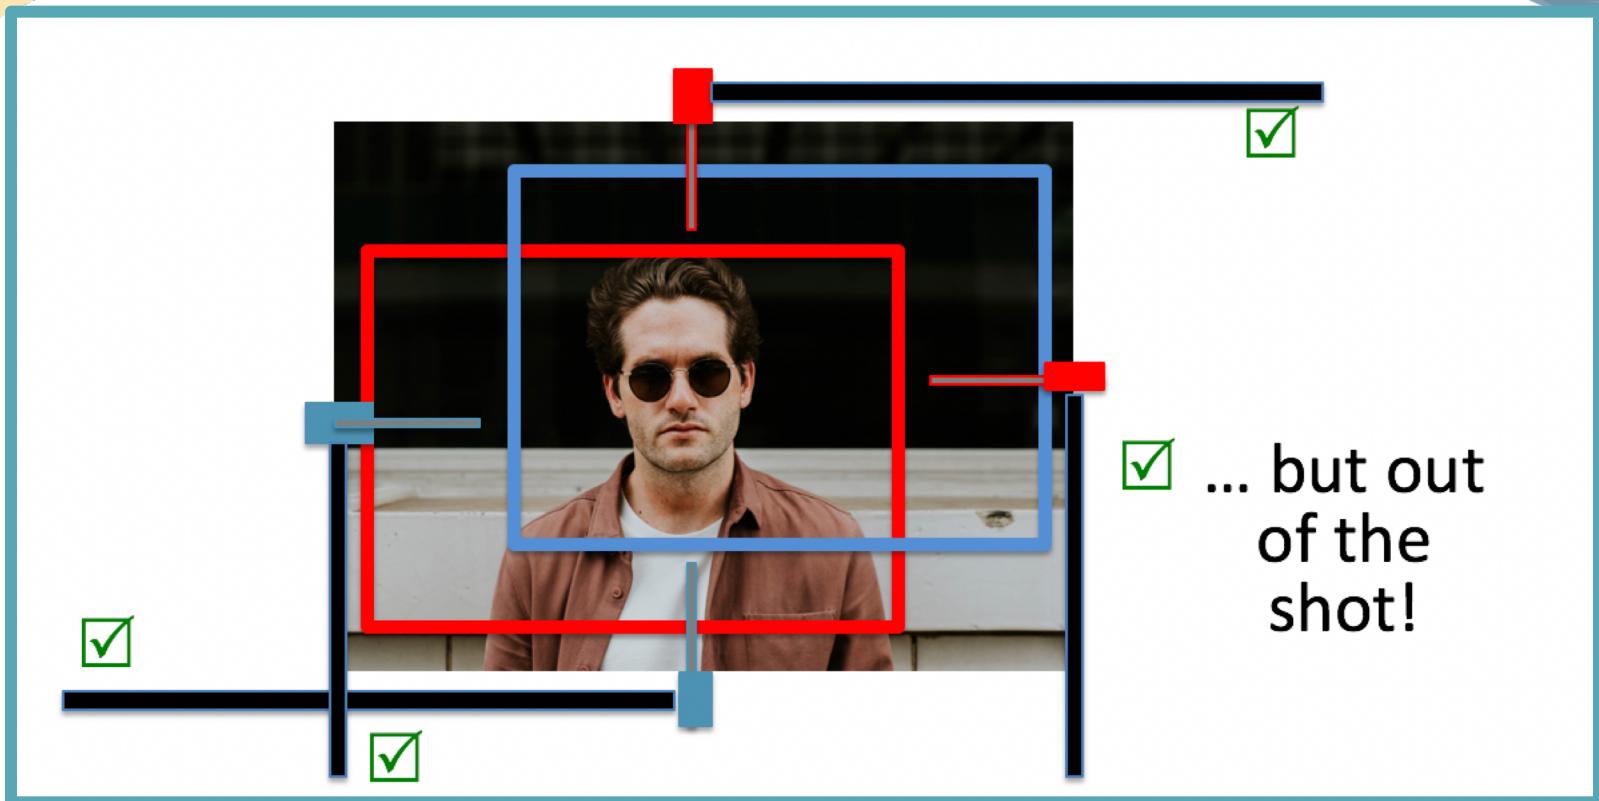

Office lighting

Air conditioner

Laita mikrofoni mahdollisimman lähelle...

# Äänen ja kuvan synkronointi

Miksi klaffia käytetään?

# Äänen ja kuvan synkronointi

The clapping gives a visual  
'moment' which you film  
(the sight clapperboard closing)

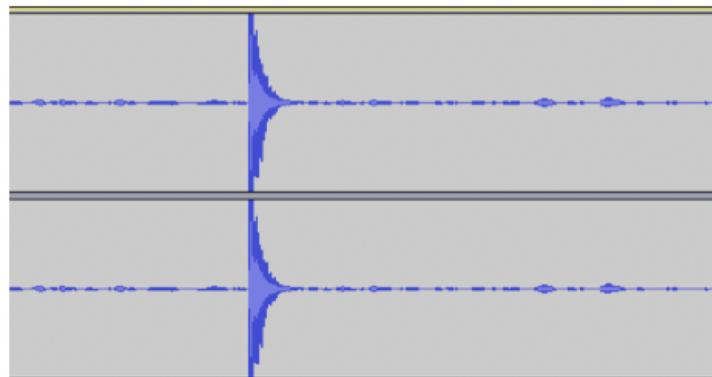

If you don't have a clapperboard you can  
simply clap your hands, once, loudly

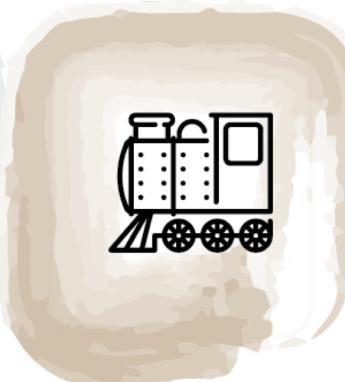

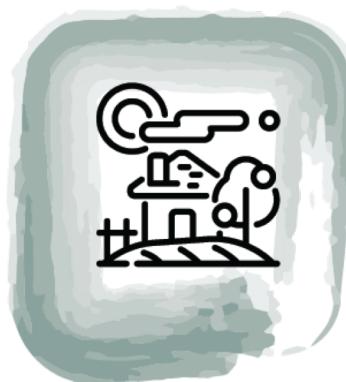

... and an audio moment  
which you record through  
your audio recorder  
(the noise of the  
clapperboard)

The illustration shows sound  
on a timeline in the free sound  
editing software 'Audacity'

In editing, match the visual  
moment with the audio  
moment and your film's sound  
and picture will be  
synchronised.
